Whether you are a small home grower or oversee a large scale facility, Twister understands how important harvest time is to you.

“You’ve spent endless hours sweating the details on growing, light cycles and cultivation, why work with anyone less than the best when it comes to harvest?”

We take the “Best in Industry” mantel very serious. Through the feedback of our fanatic community of growers and the support of our retail network, we are constantly improving our current line of products and continue to innovate as the industry evolves.

Success does not come in a one-size-fits all box. That is why when you choose Twister, not only do you get the right system for your needs but you also get industry leading Live Person 7 days a week.”
Cuts Everything but Corners
Lower Operating Expenses, Record Breaking Throughput, One-Touch Recipes, 304 Stainless Steel, Remote Diagnostics, and Safety Certified

(Woot woot!)
Record Breaking Throughput

Designed for large commercial size growers that need to hit their daily quotas but are unwilling to sacrifice product quality. The T-Zero features dual 304 Stainless Steel tumblers that provide 6.5 cubic feet of volume, that allow trimming of up to “600lbs/hr” of product both gently and efficiently.

- T-Zero’s Variable Speed Control allows ability to adjust rate of tumbler rotation
- Adjustable Tumbler Tilt Angles
- Single Piece Lean Workflow removes need for multiple machines
- Automated water misting for wet style trimming
- Optional Air-Lock installation for continuous trim separation directly onto conveyors

Game Changer #1

Record Breaking Throughput

Game Changer #1

Record Breaking Throughput

Designed for large commercial size growers that need to hit their daily quotas but are unwilling to sacrifice product quality. The T-Zero features dual 304 Stainless Steel tumblers that provide 6.5 cubic feet of volume, that allow trimming of up to “600lbs/hr” of product both gently and efficiently.

- T-Zero’s Variable Speed Control allows ability to adjust rate of tumbler rotation
- Adjustable Tumbler Tilt Angles
- Single Piece Lean Workflow removes need for multiple machines
- Automated water misting for wet style trimming
- Optional Air-Lock installation for continuous trim separation directly onto conveyors
Have a large workforce and are concerned about operator variance? The T-Zero’s new Siemens PLC touchscreen interface leverages the expertise and knowledge of your Team Lead by allowing the ability to save cultivar recipes. This allows your operators the ability to process the product with just one touch without any guesswork.

- Programmable set points and data collection allow for tracking metrics and KPIs
- Optional SCADA integration
- Water mist system for high throughput of wet trimming
- Optional connectivity for remote diagnostics and monitoring using web based app

Game Changer #2

Commercial Grade One-Touch Automation

WATCH IT IN ACTION AT TWISTERTRIMMER.COM/T-ZERO/
With single piece flow, allow your operations to streamline your skyrocketing labour costs. No longer will your trim room require large groups of workers manning multiple lines of machines. Install a T-Zero into your operation and watch your “cost of trimming drop by up-to 70%” when compared to the competitor average.

• Save labour costs every day the T-Zero operates
• ~1M in cost savings over 5 years
• Lower Training & HR Requirements
• Increased Operational Consistency
• Lower Space Constraints

Game Changer #3

Lower Operating Expenses not Expectations

WATCH IT IN ACTION AT TWISTERTRIMMER.COM/T-ZERO/
Quality and Quantity are not Exclusive

Powered by an industrial-grade 20HP motor, T-ZERO is ready for the largest production demands in the industry.

- 20 HP blade motor, 1 HP tumbler motor, 25 HP blower motor
- 5000 CFM trim collection
- Self-cleaning filters with HEPA filtration
- Water mist system reduces friction
- 304 Stainless Steel
- Variable speed blades, tumbler and airflow - Configurable machine incline levels - Customized “recipes” via touchscreen

WATCH IT IN ACTION AT TWISTERTRIMMER.COM/T-ZERO/
Safety First...Second, and Third

Automatic Shut-off Safety Sensors on doors, tumbler lid and belt guards along with motor brakes and access restrictions provide the utmost confidence for operational and staff safety. We didn’t stop there, paired with “2-Stage HEPA filtration process and the T-Zero system will now remove 99.97% of airborne contaminants.”

- 2-Stage HEPA filtration removes 99.97% of all airborne contaminants and particulate down to 0.3 micron
- Compliant with health and safety authorities
- Dual monitored safety systems with LED illumination
- Powered incline adjustments
- LED illumination

Game Changer #5

Watch it in action at TWISTERTRIMMER.COM/T-ZERO/
Cleanliness is Next to Godliness

We don’t like to brag but when it comes to cleaning even Zeus would be jealous. With 304 Stainless Steel materials and IP65 Rated Electronics, the T-Zero makes it easy to pressure wash the full machine:

- FDA approved belt material on conveyors that can be flipped up for easy-to-access cleaning
- Trim collection uses easily cleanable cyclone technology
- Air powered self cleaning filters
- Water mist system reduces friction and allow for simple cleaning
- Air system is plumbed with quick-connect, 304 stainless steel ducting
- Want an even easier solution? Ask us about Clean-in-Place!
All New Twister T2
#1 Trimming System Among Commercial Producers.

The new T2 - built with the same consistency, durability and reliability that medium to large scale producers have grown to love now with new safety additions to ensure your production meets the required health and safety requirements.

35lbs/hr Wet, 11lbs/hr Dry
(14.515kg Wet, 4.98kg Dry)

463 107 85+ 24
T2s in use at Licensed Producers Commercial Producers have purchased T2s Licensed Producers in Canada Use Twister Countries Use Twister Trimmer
With six settings each for both the tumbler and the blade, the new T4 standard with Speed Control gives you thirty-six trimming styles in one quality machine.

23lbs/hr Wet, 16lbs/hr Dry
(10.43kg Wet, 7.25kg Dry)

Take Control

Fully customize tumbler and blade speed and decrease vacuum suction. Adaptability is critical, and as each strain differs, you can set your trim settings to your harvest liking. Darwin would be proud.

Our machines can grow with your operation. By running Twisters inline you can increase your harvest capacity without increasing your labour.

The Buck Doesn’t Stop

De-stem your product with the B4 Bucker, equipped with the industry’s most powerful motor and gearing system. With patent-pending bucking technology, the B4 replaces the work that crews of 5-7 used to do by hand. Process up to 150+ lbs/hr (fully hydrated) with one unit!

SWAPPABLE CARTRIDGES

Once finished with a specific strain, simply swap in a QA approved cartridge and be up and running once again. Zero downtime!
Batch Style Dry Trimming

Built with cultivators who prefer dry trimming and a batch style workflow in mind, the brand new BatchOne trimmer offers industry leading throughput and quality trim, all in one mobile unit. We understand that cannabis is your craft which is why we focused on all the little details that matter: producing a great trimmed product, intuitive user experience, simple cleaning and no-nonsense portability.

32”

Larger Tumbler than Closest Competition

More Power than the Competition

Fits Through Standard Doors
Make Drying a Breeze

Unlike tall trays, where product has a tendency to pile on top of each other and thus creating a mold supported environment, our low height trays encourage single layer product drying. And with spaces for 20 trays you get the maximum drying per square foot.

Maximize Profit Without Wasting Your Trim

The Trim Saver™ is a revolution in trim collection and preservation for Twister leaf trimmers. An industry first, the Trim Saver uses radial cyclone technology to generate airflow from a vacuum, effectively bypassing the vacuum impeller to deliver the greatest production possible without damaging your trim. “A truly plug-and-play addition for your T2/T4, simply connect the vacuum and hit the power switch.”

Available for T2 and T4 Trimmers

For full specs, go to page 45
